

Impact Chapters

Ordinary people, Extraordinary Impact

Pulse Check

01

The Complaint

"How many of you have complained about something in college?"

02

The Expectation

"How many of you have thought that someone should do something about this?"

03

The Action

"How many of you actually did something about it?"

Section 1

So how do you go about solving a problem?

PROBLEM-SOLVING METHODOLOGY

The 5W1H Framework

W**Who**

Identifies stakeholders, victims, or target groups.

What

Defines the core issue, action, or roadblock.

Where

Locates the physical or digital space of occurrence.

W**When**

Establishes the timeline, frequency, or triggers.

Why

Uncovers root motivations, causes, or constraints.

H**How**

Determines the mechanism, process, or steps to address and resolve the problem.

Structured Analysis

The 5W1H framework is a systematic questioning technique used to explore all facets of a problem. By addressing every dimension, you ensure no blind spots remain before designing solutions.

Key Benefits for Teams:

- **Root-Cause Clarity:** Moves beyond surface symptoms to identify why a breakdown occurs.
- **Actionable Scoping:** Establishes clear boundaries of what is within project reach.
- **Shared Alignment:** Creates a unified understanding of goals across diverse stakeholders.

PROBLEM-SOLVING METHODOLOGY

5W1H in Action: Urban Food Waste

Challenge: Urban university dining halls generate significant edible food waste daily due to the absence of rapid, scheduled transport to local shelters.

Who & What

Who

University cafeterias and nearby community shelters.

What

~120 kg of safe, edible surplus food discarded daily.

Where & When

Where

Central dining halls to local urban shelter hubs.

When

Critical daily windows post-lunch (15:00) and post-dinner (22:00).

Why

Why

Lack of real-time cold logistics and scheduled handover workflows.

How (Proposed Model)

The Solution

Deploy an app-based student volunteer dispatch paired with localised EV micro-couriers for rapid 45-minute pickup windows.

Target Impact

Potential to recover **3,000+ meals/month** with an estimated **80% reduction** in edible dining waste.

Section 1

Workshop Exercise

Now It's Your Turn

The Challenge Statement

An annual three-day **college cultural festival** generates more than **500 kg** of non-recyclable flex banners, single-use PVC delegate passes, and plastic water bottles, all sent directly to local landfills.

Your Task

Apply the **5W1H framework** to diagnose root drivers and design a reduced waste festival operations plan.

Map out all 6 components (Who, What, Where, When, Why, How) on your worksheet.

One Possible Approach

Diagnostic Analysis (The 5Ws)

Who: Student organising committees, corporate sponsors, and 5,000+ festival attendees.

What: 500+ kg of non-recyclable flex banners, PVC delegate passes, and single-use bottles.

Where: Main festival grounds, performance stages, and outdoor food stall zones.

When: 72-hour peak festival duration and rapid 24-hour post-event teardown window.

Why: Rigid budget caps, reliance on cheap synthetic vendors, and lack of salvage logistics.

Standout Intervention (The How)

(Circular Buyback Ecosystem): Partner with a local upcycling social enterprise on a post-event buyback model.

Collect **100% of cotton fabric banners** and canvas stage backdrops immediately during the 24-hour teardown to be repurposed into tote bags and conference merchandise for next year's fest.

Projected Impact: Diverts 80%+ of event collateral from landfills while generating circular merchandise for future editions.

Section 1

What is Nation Building ?

Nation Building began with a simple belief:

‘Ordinary people can create extraordinary impact when they choose to show up’

NationBuilding is a platform committed to inspiring India’s youth to pursue purpose driven careers and make nation-building a shared mission among the youth of India.

We make students aware, inspire them, and engage young individuals to build a sustainable ecosystem for civic participation and innovation.

But our story is not really about us. It’s about a generation choosing to show up for India. Because when young people find purpose and community, they don’t just participate in growth, they lead it.

1,35,000+

undergraduate students engaged with
NationBuilding in just

02

years through competitions,
workshops, fest and more

OUR INITIATIVES

We have created multiple pathways for students through our ecosystem initiatives

COMPETITION

Building India Case Study Competition

India's largest undergraduate case study competition to ignite young minds and drive real-world impact.

COMMUNITY

Impact Chapters

Network of students from India's premier colleges solving hyperlocal issues and driving ground impact.

CONCLAVE

Building India Conclave

Connect students with experts through panel discussions on the most relevant themes influencing India.

PANEL DISCUSSION

Decoding Elections

Panel discussions helping students understand key issues, narratives and forces shaping India's democracy.

FELLOWSHIP

Building India Impact Fellowship

Applied research program solving complex national challenges through rigorous analytical methods.

Impact Chapters

“

“Never doubt that a small group of thoughtful, committed citizens can change the world.”

About

Building India Impact Chapters is a network of students from India's premier institutions committed to channelising their passion, creativity and problem-solving skills to drive a meaningful change in society through small but consistent actions. We make students aware, inspire them, and engage young individuals to build a sustainable ecosystem for civic participation and innovation.

WHY WE DO THIS

Our Purpose

Our Mission

Make students aware, inspire them, and engage young individuals to build a sustainable ecosystem for civic participation and innovation.

Our Vision

Inspire India's top undergraduates toward meaningful, purpose-driven careers and make nation-building a shared mission among the youth of India.

How is this different from other campus engagements?

01

Bottom-up approach

Students don't just execute, but identify problems, vote on priorities, and lead solutions

02

Structured leadership pathways

Every leadership position is earned through an open and competitive application process, building real-world readiness

03

Hyperlocal actions to real impact

Translate ideas into tangible change by mobilising students and stakeholders to create lasting social impact within your college community.

04

Real-time mentorship

Work directly with subject-matter experts, relevant stakeholders, and the Nation Building team to implement high-impact projects

05

PPI opportunities & Recognition

Pre Placement Interview Opportunities with Nation with NaMo and tiered recognition

Top performing branches: PPI opportunities with NationBuilding

Consistent performing branches: LORs, campus-wide branding, cross-college collaborations

Emerging branches: Support, training, and resources to grow

06

Shared culture

Be part of a growing chapter network across cities, with regular city meetups that foster collaboration and shared purpose

Not just another chapter, this is an ecosystem built where leadership is earned, impact is measured, and purpose meets possibility.

Section 3

Work Charter

A year-long roadmap to drive impact with structure, substance, and scale

Discover, lead and create meaningful impact

Community Impact Pulse

Programme that empowers the chapters to design and execute real-world community impact projects driving social impact within and beyond the campus under one central theme.

Civic Activation Pulse

Centrally designed programmes (surveys, panel discussions, etc.) that assess the pulse of students on critical themes such as health, career aspirations, and civic engagement to generate insights for better campus policies

Community Connect Pulse

Programme keeping the campus community informed and involved through offline and online campaigns

THIS YEAR'S THEME: PREVENTATIVE HEALTHCARE

Redefining Campus Health & Vitality

Shifting from reactive treatment to proactive wellness to foster a resilient student ecosystem.

Early Detection

Identifying health risks and physiological markers early through accessible screening and personalized biomarker tracking on campus.

Holistic Well-being

Empowering students with practical dietary education, lifestyle adjustments, and proactive wellness habits tailored for campus life.

Measurable Impact

Validating wellness outcomes through data-driven student health assessments, food quality audits, and longitudinal tracking.

Section 4

Chapter Structure and Roles

Team Structure

Impact Chapters are organised into three key bodies: the Executive Body; the Management Body and the General Body. The tenure for each Impact Chapter will commence on **1st August** and conclude on **30th July** of the following year, constituting one full academic year of operation.

Executive Body		
President <i>(Final Year Student)</i>		
Vice President <i>(Standard Initiatives)</i>	Vice President <i>(College Initiatives)</i>	Vice President <i>(Marketing Initiatives)</i>
Management Body		
Coordinator <i>(Pre-final Year Student)</i>	Coordinator <i>(Pre-final Year Student)</i>	Coordinator <i>(Pre-final Year Student)</i>
General Body		
Associates <i>(First/ Pre-final Year Student)</i>	Associates <i>(First Year Student)</i>	Associates <i>(First Year Student)</i>

Who We Are Looking For & What You Will Do

Who We Are Looking For

1

Curious & Growth-Minded

We welcome individuals with a strong drive to learn, adapt, and bring fresh perspectives to our campus initiatives.

2

Reliable & Committed

Looking for dedicated team players ready to take ownership of projects and sustain active involvement throughout the academic year.

What You Will Do

1

Collaborate & Co-Create

Brainstorm together, design high-impact projects, and participate actively in shaping our chapter's core direction.

2

Drive Hands-On Impact

Bring ideas to life through ground-level coordination, execution of localized events, and meaningful peer engagement.

Section 5

Member Selection Process

Member Selection Process

The General Body shall be selected through a recruitment process that includes:

01. Application

Filling of Application form

02. Group Discussion

GD conducted by the Management Body

03. Interview

Personal Interview by Management Body

Selected members will be informed via mail. The final list of selected Members will be submitted to the Central Team for documentation and compliance

Applications Open

Submit your application to join the Building India Impact Chapter

Deadline Approaching

12 PM, Saturday

Please ensure all forms are completed and submitted online before the cutoff time. No late entries will be reviewed.

Next Steps

- 1. Complete the Form:** Fill out all biographical details and prompt responses accurately.
- 2. Submit Before Midnight:** Upload any required portfolio materials or verification documents.
- 3. Await Evaluation:** The management body will review submissions for the discussion phase.

Section 6

Let's Answer Your Questions

Thank you for your time!!

We appreciate your time and dedication.
